

# U.S. ARMY MATERIEL COM

**CW5 MARK A. STEWART**

**AFSC / LAO Fort Benning**

*ESSENTIAL IN PEACE, INDISPENSABLE IN WAR*

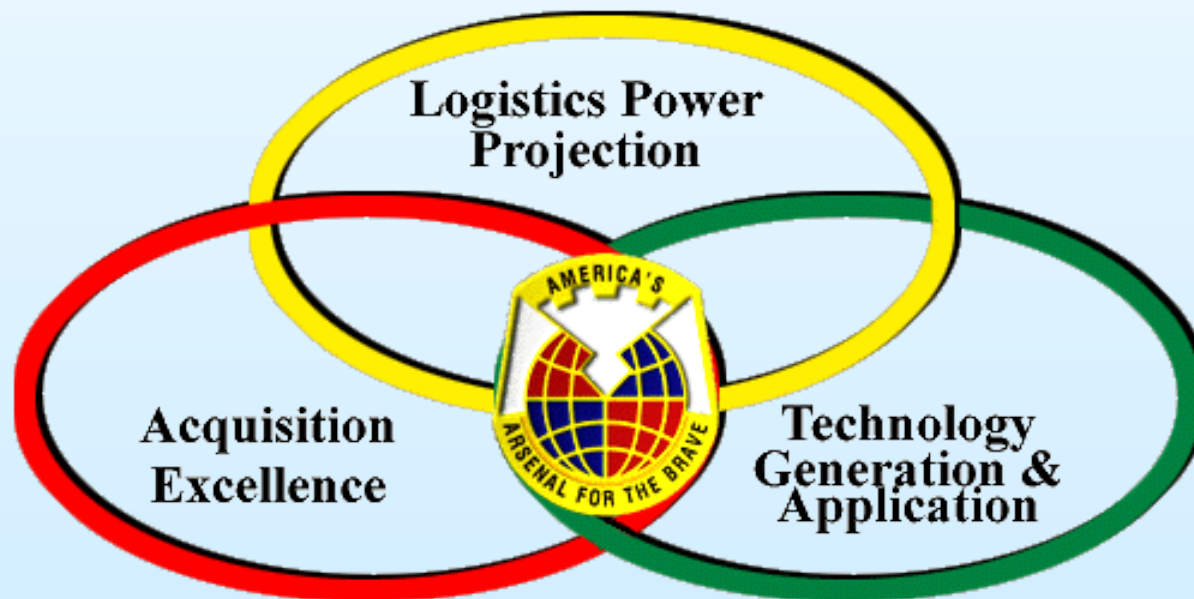

# AMC VISION

***To be THE army's provider of MATERIEL READINESS -- technology, acquisition, materiel development, logistics power projection, and sustainment -- across the spectrum of military operations.***

# EMPHASIS ON READINESS

- ◆ **General Kern has placed maximum emphasis on Unit/Materiel Readiness.**
- ◆ **AMC Field Support Centers and the Operations Support Command (OSC) were developed concurrently.**
- ◆ **AMC Major Subordinate Commands were given responsibility to establish AFSCs while the OSC was being created.**
- ◆ **The OSC is established and resourced the AFSCs have transitioned to the OSC.**

# AMC OPERATIONS SUPPORT COMMAND MISSION

U. S. Army Operations Support Command

## MISSION

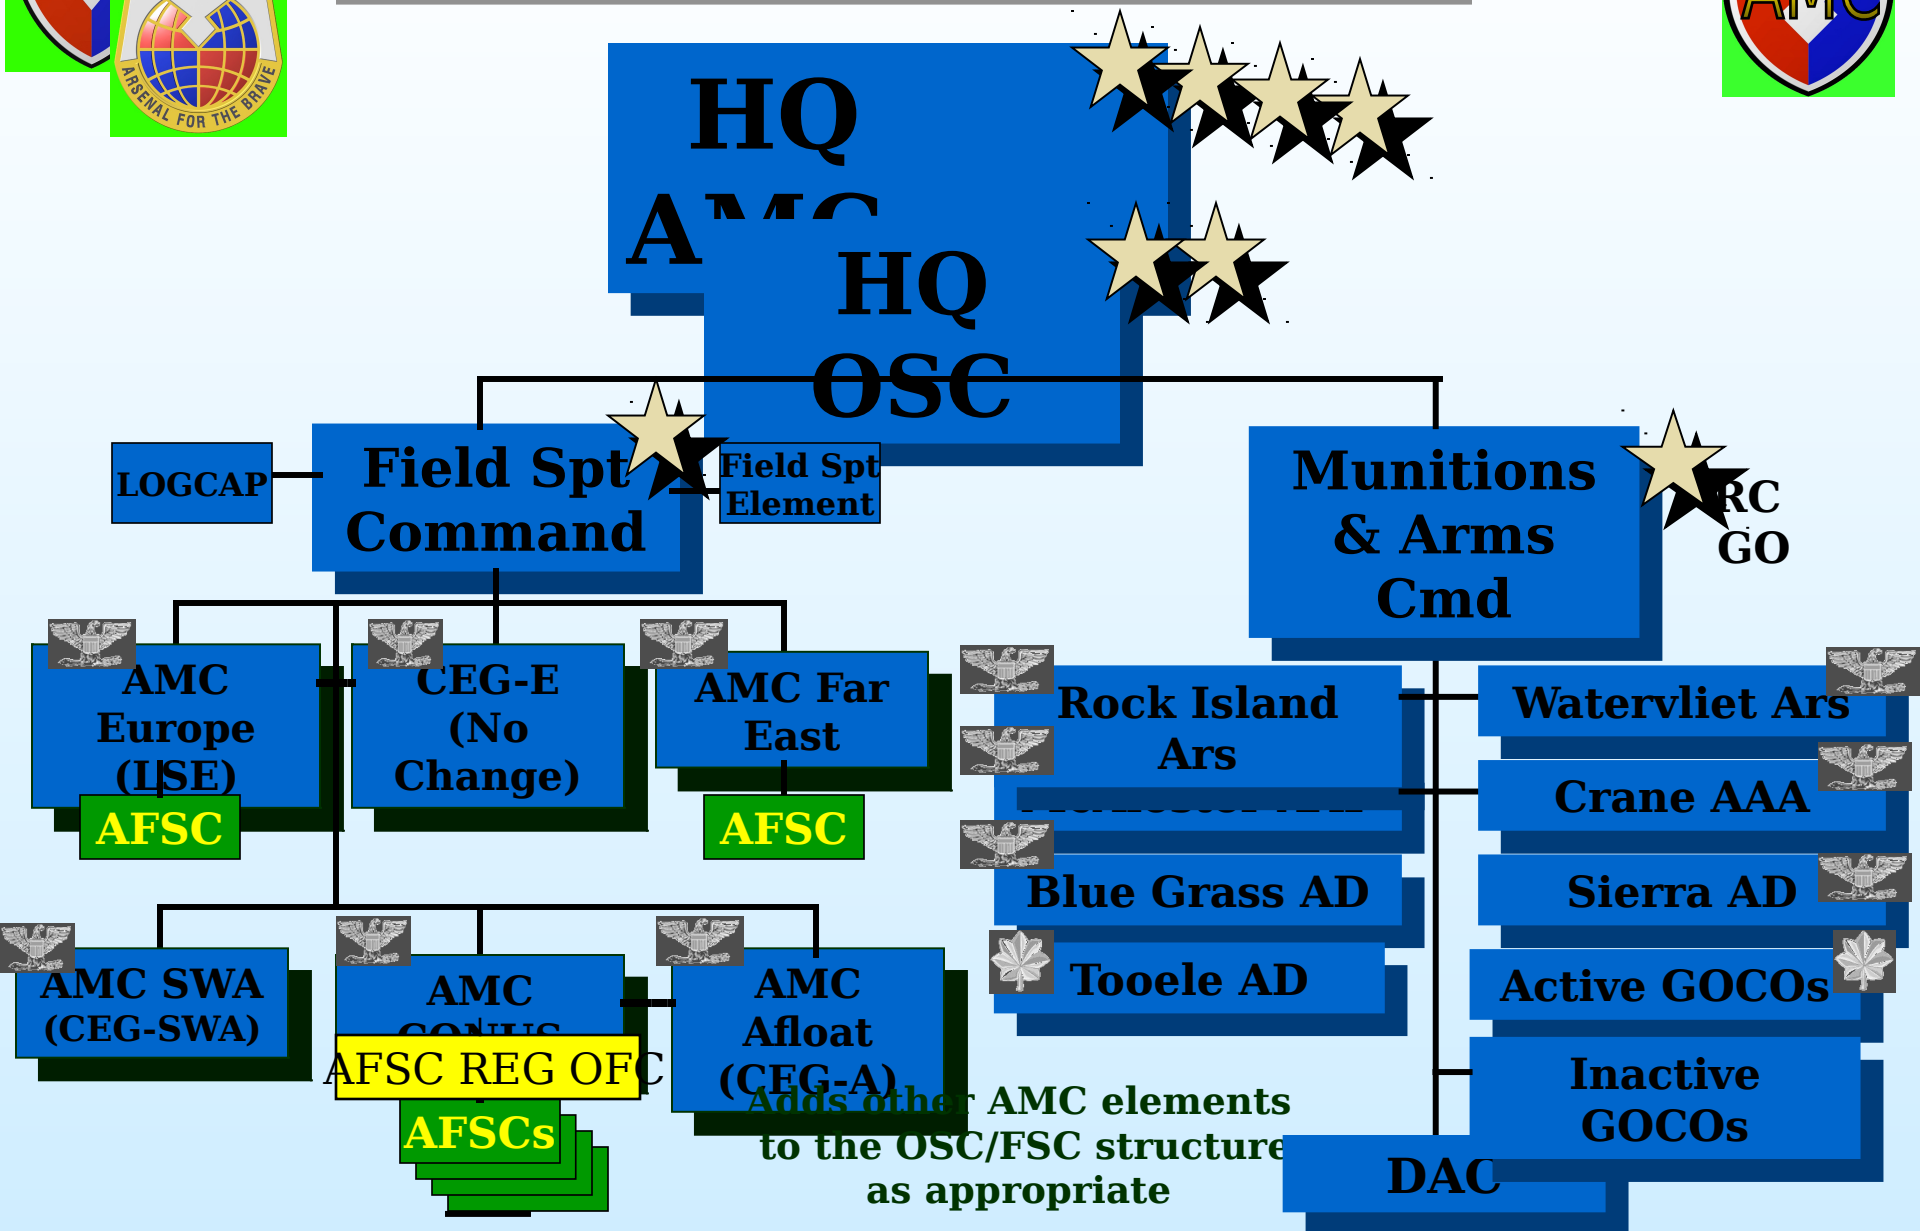

- **Centralized command and control over AMC's forward logistics support elements (LAO/AFSC).**
- **Activities in 35 states, 15 foreign nations and Puerto Rico.**
- **Manages the Army's prepositioned stocks of War Reserve materiel and its two manufacturing arsenals.**

➤ **Single DOD Manager for  
Conventional Ammunition**

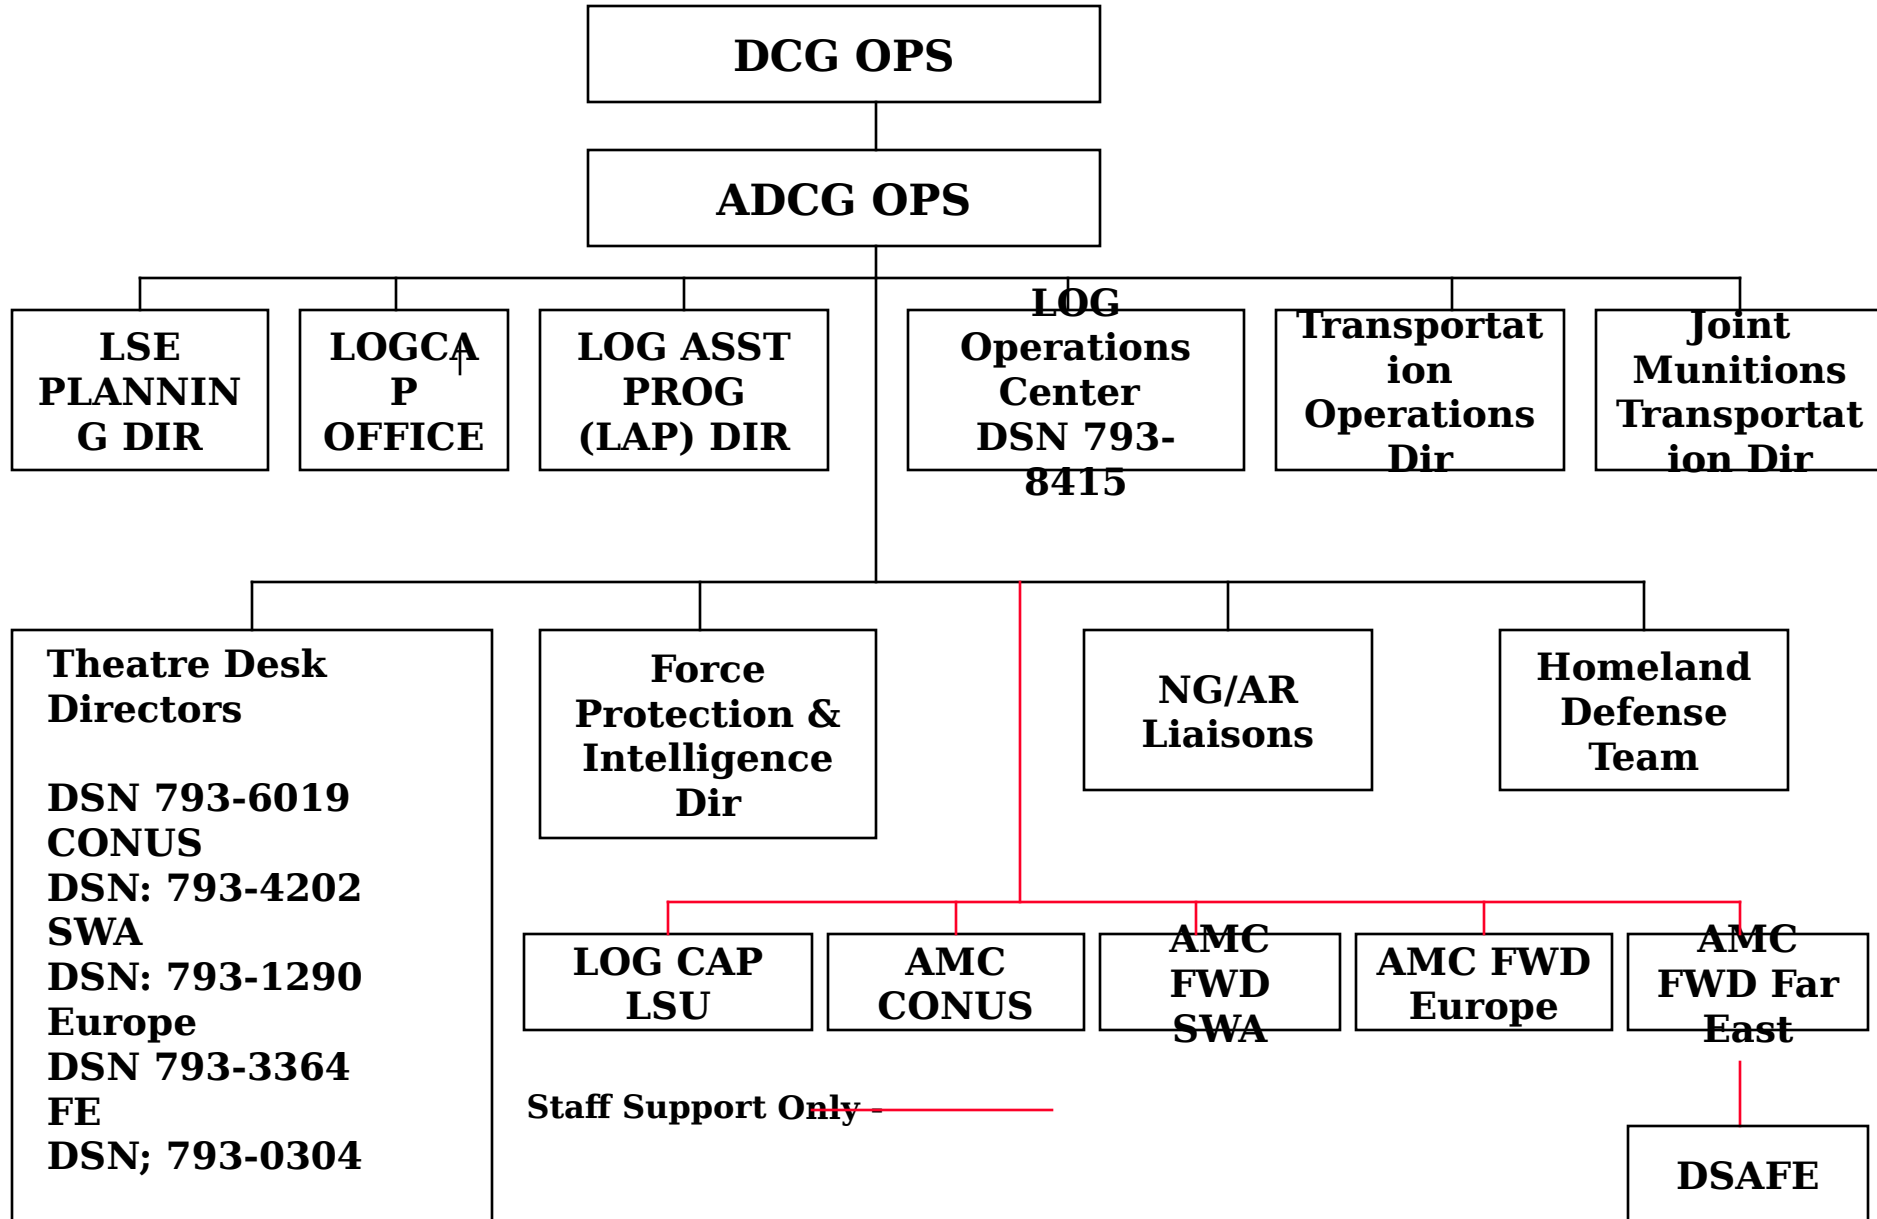

# OSC STRUCTURE

**ESSENTIAL IN PEACE, INDISPENSABLE IN WAR**

**Operations Support Command  
Deputy CG for Operations**

***ESSENTIAL IN PEACE, INDISPENSABLE IN WAR***

# MISSION

**Provide a  
synchronized face to  
the war fighter,  
assume responsibility  
for AMC logistics  
operations worldwide  
providing a seamless  
anticipatory link  
between the CINC and  
logistics support  
worldwide and**

## Command Structure

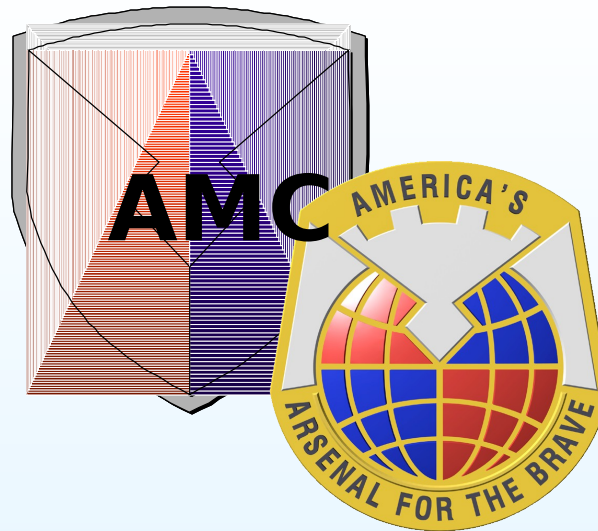

**There are six Army Materiel Command (AMC)  
subordinate organizations...AMC-CONUS, AMC  
Forward-Europe, AMC Forward-Far East, and  
AMC Forward-Southwest Asia plus AMC  
Combat Equipment Group-Europe (AMC CEG-  
E) and AMC Combat Equipment Group-Afloat  
(AMC CEG-A).**

**Rock Island Arsenal, IL**

***ESSENTIAL IN PEACE, INDISPENSABLE IN WAR***

**The Army Material Command (AMC) has a wide assortment of organizations supporting the war fighter in the field. To maximize that support, AMC is establishing AMC Field Support Centers (AFSC) at strategic worldwide locations. The AFSC at Fort Benning is established at the LAO Office, Bldg 108, Gillespie St. The AFSC has the mission to improve management and visibility of all AMC activities on the installation and to improve the services provided. The AFSC lets the war fighter turn to a single AMC representative for all of their national level logistics needs.**

# AFSC VISION

## Our Vision:

# The Soldier's Gateway

AMC

## Mission

## Objectives

### Purpose

- Enhance AMC's world class support to the Warfighter
- Establish an AMC "Single Face To The Field"

- Integrate, coordinate, & synchronize all AMC activities
- Maximize Log Support of the Warfighter by optimizing the Command, Control, and functional relationships of AMC field service

- Improve customer support
- Maintain Warfighter readiness
- Create enhanced awareness of AMC's capabilities
- Provide best value to the Warfighter
- Eliminate redundancy

contractors

# AFSC FUNCTIONS

- **Integrates, coordinates, synchronizes all AMC activities (Government & Contractor) on installation/in theater.**
- **Through the Senior LAO/AMC Forward Command, serves as AMC's single face to the customer on installation; is the focal point for the customer on any questions/issues concerning AMC support.**
- **Provide continual updates to the Sr. LAO/AMC Forward Commanders on AMC capabilities and issues.**

# AFSC FUNCTIONS

- **Maintain frequent and regular contact with the customer to inform and market AMC capabilities in support of customer requirements.**
- **Maintain situational awareness of and understands customers readiness needs and priorities.**
- **Communicates/coordinates with AMC activities to expand or establish capability to meet customer needs.**
- **Maintains awareness of AMC automated logistics systems.**

# AFSC FUNCTIONS

- **Maintain awareness of all AMC contracts on installation or in theater.**
- **Conducts frequent and regular teaming sessions with the AMC activities on installation/in theater to improve integration and coordination for benefit to the customer.**
- **Maintain an Internet accessible WebPages/database of all AMC capabilities on installation for use by customers and other AMC activities.**
- **Maintains automated reporting between AMC activities and the AFSC for up to date**

**POC:** Commercial (706) 685-2505

**PERSONNEL:** Total Staffing is 8.

**Site Manager: 1**

**Electronic Technicians: 6**

**Sustainment Trainer: 1**

**MISSION:** To provide LCCS support which encompasses operations, maintenance, supply, life cycle sustainment, integration and engineering support services for Fort Benning, Fort Rucker, Fort McPherson, Fort Gillem and Anniston Army Depot.

**ARMY MATERIAL COMMAND (AMC) HAS MAJOR SUBORDINATE COMMANDS  
(EIGHT), OF WHICH SEVEN ARE REPRESENTED AT FORT BENNING**

**Operations Support Command (OSC)**

**U.S. Army Aviation & Missile Command (AMCOM)**

**U.S. Army Research Laboratory (ARL)**

**U.S. Army Communications-Electronics Command (CECOM)**

**U.S. Army Soldier and Biological Chemical Command (SBCC)**

**U.S. Army Simulation, Training & Instrumentation Command (STRICOM)**

**U.S. Army Tank Automotive Armaments Command (TACOM)**

# **MAJOR SUBORDINATE COMMANDS**

**OSC - They manage the Army's pre-positioned stockpiles of War Reserve Materiel and are the Defense Department's agent for buying, making, maintaining, storing and transporting conventional ammunition for all military services. They also, provide Operations control to AMC's forward logistics support elements and Logistics Assistance Offices.**

**AMCOM - Their mission is to develop, acquire, field, and sustain aviation and missile systems such as: Avenger Missile System, Sentinel Radar, Integrated Family of Test Equipment (IFTE), Ground/Vehicle Laser Locator/Designator (G/VLLD) AN/TVQ-2, and Black Hawk Helicopters.**

**ARL - They are America's Laboratory for the Army, providing materiel readiness through new technology. Some 1,250 Scientists and engineers work on projects such as Lightweight NBC Material, Unmanned Vehicles, Alternative Propellants, and Fuel Efficiencies.**

# MAJOR SUBORDINATE COMMANDS

**SBCCOM** - Their mission is to develop, acquire, and sustain soldier, soldier support, and nuclear, biological, and chemical defense technology, systems, and services such as: Air drop; Clothing and Individual Equipment; Field Services like Laundry Units and Force Provider; Nuclear, Biological, and Chemical Defense equipment like Laundry Units and Force Provider; Nuclear, Biological, and Chemical Defense equipment like M45 Aviator mask, Gas Particulate Filters Unit (CPFU), and M40 Protective mask; Rations and Field Feeding; Tents; Obscuration and Decontamination Systems.

**STRICOM** - Provides the Army with Training devices, simulations, simulators and instrumentation for both training and testing such as: Multiple Integrated Laser Engagement System (MILES); Military Operations Urban Terrain (MOUT), and JRTC SAWE Tower.

**TACOM** - They are responsible for generating war fighting capability and sustaining war fighting readiness on equipment such as: Fork Lift, Tank, Grader, Engine, Ambulance,  $\frac{3}{4}$ -Ton Trailer, Bulldozer, Concrete Mixer, Self Propelled Howitzer, Personnel Carrier, Torch Outfit Cutting and Welding, Electric Drill, 22-ton All Terrain Crane,

4. Contractors on the Battlefield

***ESSENTIAL IN PEACE, INDISPENSABLE IN WAR***

The background of the slide features a collage of military imagery. On the left, a soldier in full combat gear, including a helmet and night vision goggles, is shown in a combat stance. In the center, a group of soldiers in various uniforms are visible, some holding rifles. On the right, there is a prominent image of a soldier in a green camouflage uniform and helmet, holding a rifle. At the bottom right, two more soldiers in camouflage are shown, one with arms crossed. The overall scene is set against a dark, smoky, and somewhat blurred background, suggesting a battlefield environment.
